

*going beyond* traditional accounting

In contrast to many CPA firms, we look beyond the traditional accounting role to *analyze, develop* and *implement* strategies to achieve your financial objectives. With extensive experience in corporate financial management and public accounting, we're a business advisory firm offering a more comprehensive approach. And as a *local* firm offering *personable service, competitive rates* and a *hands-on management style*, it could just mean we're the *perfect financial partner* to handle your needs – whatever the size. Visit our Web site at [www.jnrpcas.com](http://www.jnrpcas.com) to learn more.
